The Cowles Baby Recovering—The Postmaster—The City Hole—Why Hasn't Horace Paid?—The Corpse

Another row, which came near ending in tragedy, took place in the McDonald ouse of prostitution, No. 114 Alameda treet, just after midnight this morning. A cuple of hard-looking citizens entered the lace earlier in the evening, and one of hem, who was more cowboyish cit appearance than the commenter. Sook pressession, ance than his companion, took possession, with an ugly-looking "gun" and wild-west cuss words. In less time than the proverbial "no time," he had the lost maidens, including the madam, thoroughly cowed. He flourished the pistol wildly,

cuss words. In less time than the proverbial "no time," he had the lost maidens, including the madam, thoroughly cowed. He flourished the pistol wildly, and ordered the women about to his heart's content. Finally his partner became frightened and left the den, and it was lucky for him that he did, for in a very short time the crack of a pistol in the back part of the house swakened the neighborhood. When the timid one left the house the would-be cowboy turned himself loose and made each girl seek the seclusion of her room. The McDonaid woman manged to get to the front door just as Officer Morton was passing on his beat. She called him in an as he entered the front door the man dodged through the back door. The officer followed him, and had hardly entered the door when a pistol was poked in his face and discharged. The room is very small, and when the shot was fired Morton could not have been more than two feet from the shooter. The plowder from the pistol burned his face, and the builtet passed so close to his head that he could almost feel it graze his cheek. How the man missed his aim is a mystery, for he took a steady aim, and held the pistol almost in the officer's face. Morton grappled with him in a second, and by a lucky stroke of his club had the would-be murderer flat on the floor. The officer secured the pistol and had the unan on the sidewalk in a second. By this time the fellow had recovered and a running fight took place from Alameda street to the police station. Wheff they arrived at the station an ugly wound, from which the blood was streaming, could be seen on the brute's face. This was where Morton's club struck him. He refused to give his name, but from some papers and letters it was learned that his name is George Harrington and that he is a cook. He was charged with an assault to commit murder and was put in a dark cell. A TIMES reporter visited the house and was told by the inmates that Harrington had made several attempts to shoot the "Professor," a male creature who thumps the plano. Harri

POSTMASTERDGREEN.

He Thinks the "Bulletin" Story a Mere Rumor.

E Yesterday's Associated Press dispatches stated that the San Francisco Bulletin had received a special from Washington to the effect that Postmaster-General Vilas is going to decapitate Postmaster J. W. Green because the latter has been too competent, and appoint that able belaborer of carpets, Sid Lacy. A Trues representative called

because the latter has been too competent, and appoint that able belaborer of carpets, Sid Lacy. A Times representative called on Postmaster Green yesterday to ask what he knew about the matter. He said:

"I look upon the Bulletin article as a rumor only. I do not believe that the Postmaster-General said what is attributed to him in that article. As I understand it, allowances for postoffices are entirely within the discretion of the Postmaster-General, and I hardly think he ever said that the department could not do any better for Los Angeles, for since that article was penned he has granted an increased allowance. It is true that I have been urgent in asking for more clerks, larger pay for them and for better facilities for the Los Angeles postoffice, and I consider that I would be derelict did I not, as often as necessary, advise the department of what is necessary to improve the service. I am conscious of having tried very earnestly to secure the service for the people of this city to which they are entitled. I have done this, I believe, unself-lishly."

THE CITY HOL

The "Herald" Toying with a Big Mare's Nest.
Yesterday's Herald, editorially, "jumped" Council and John Bryson, Sr., anent the "city hole" purchase by the latter, and insinuated that there was a crooked job. Mr. Bryson stated to a Times representative. Sinuated that there was a crooked job. Mr. Bryson stated to a Times representative yesterday that this allegation was totally false. "I am ready," said he, "to turn over the money (\$120,000) in an hour after the city has prepared a warranty deed for me. The only reason why there has been any delay is this: The ordinance authorizing the saie did not provide for a continuance of the sale from day to day, and the sale was so continued. That caused the question to be raised whether the final sale was all right. It is all right, and as soon as we get the deed the city gets the money."

City Attaney Daly 'stated ye terday to the same reporter that the sale to Mr. Bryson was perfectly good.

Mr. Bryson remarked that the only thing which alls the Herald is that he opposed Lynch for Congress. "I have voted the Democratic ticket all my life, and never supported any Republican before. But I voted and worked for Gen. Vandever because I did not think Lynch a fit man to represent such a community as this in Congress."

The Starved Child Recovering—Generous Contributions.

The starved Cowles baby, whose sad case has roused such universal indignation and pity, was a little stronger yesterday. It eats ravenously, but does not sleep well, owing to the fact that its rest has heretofore been so habitually braken by the drunken brawls of its ville parents. There is every encouragement to believe that under the present careful nursing it will live and wax strong. There never was a better opening for charity, and there has already been a generous response from an interested public. A 9-year-old boy, named Matthewson, living on Fort street, read yesterday's Times, and was so interested in the case of poor "Baby Bunting" that he went and purchased it a pretty pair of socks out of his little savings. Mrs. Var Nuys and Mrs. Perey R. Wilson, of this city, and Mrs. H. K. Bent, of South Pasadena, sent in to the secretary of the Humane Society yesterday generous bundles of good clothing for "Baby Bunting" and his brother and sister Freddie and

Lollie, who are now boarded at the Orphans' Home at the expense of the Humane Society. A Pasadena gentleman signing himself G. E. P. sent in to this office yesterday a money-order for \$5, which was turned over to the secretary. A well-known young gentleman of this city, who is too modest to have his name mentioned, sent a \$20 gold piece to be applied in behalf of the three unfortunate children; and a Councilman considerated \$5, more.

perienced investigators of the slums of great cities have never seen another case so bad anywhere. There are bad cases, however, and horrible ones. The Humane Society here has been doing a noble and very successful work in a quiet way, and aims to take up all such cases. Any contributions to a depleted treasury can be sent to the secretary, Dr. Dorothea Lummis, 347 Fort street, and will be duly acknowledged.

The brutal parents of the Cowles children come up before Justice Austin this afternoon for sentence, and it is the general hope that they will get the full benefit of the law. Unfortunately in this State their offense does not send them to the penitentiary as it does in New York, the maximum punishment here being \$500 and 500 days in jail—no more than was given one man here last

Quien Sabe?

Quien Sabe?

It will be remembered that a year ago Horace Bell was fined \$700 by Judge William A. Cheney, for successive and persistent contempts of court. The matter was brought before Judge Brunson, who held that \$400 of the penalty (for publications) should be remitted, but that the \$900 imposed for impudent language in court should stand. Judge Brunson rendered this decision July 20th, and it was published in full in The Times. One of the leading members of the Los Angeles county bar said, vesterday, to a representative of The Times: "You remember that Bell was fined \$300 for contempt of court a year ago. It would be interesting to know why he has never paid that fine, and never been molested for it. Does any one know why?"

Still Drifting.

It appears that when a dead body was found floating in San Pedro Harbor, Monday, the discoverer wouldn't bring it ashore unless assured of pay for the unpleasant job. He hadn't much faith in the Supervisors, and wasn't going to send in a bill, the relief of Compar Meredith.

The Smallpox.

There were no new cases of smallpox yesterday. A little negro, child on Buena Vista street died. This makes a total of ten deaths in the city since the disease was first discovered, about February 18th.

silly Misses, Under Age, Leave Home and Go on a "Circus" with Two Firemen—A Shameful Case—The

The publication in yesterday's TIMES of Edith Moore's absence from her home was the means of bringing the matter to a head last night. The case was placed in the hands of Constable Ed R. Smith yesterday, and he succeeded in finding the girls. A TIMES reporter also devoted the afternoon to making a thorough lawsetic size, the now and then come to light, involving the ruin of innocent girls. The evil conduct was begun, so far as known, on last Sunday, and a French restaurant, with vile wine thrown in, assisted the male creatures in their evil designs. The two men, who are named Ed Kinney and L. A. Barthol, both of the Los Angeles fire department, Kinney driving 38's engine and Barthol the hose cart, met the girls and conducted them to a French restaurant opposite the Pico House. The quartette were there three or four hours, and after they left there it is not known where they spent the rest of the night; but on Monday morning, bright and early, they showed up at the same restaurant and had breakfast. During the day they spent their time driving about town. Late in the afternoon they drove up to the restaurant and the girl, Letta keyes, Miss Moore's companion, got out of the carriage with Barthol and entered the restaurant. Kinney and Miss Moore down to the stable with the team and soon returned to the restaurant, where the same performance of the night before was gone through with. During Monday afternoon the two girls applied to P. Ballade, who keeps the Hotel des Pyrenees, on the corner of Alameda and Allso streets, and asked to engage a room.

"Will you occupy the room yourselves?"

He hadn't much faith in the Supervisors, and warn't going to send in a bill, only to be rejected. Coroner Meredith, being sick, telephoned to Justice Weeks to hold the inquest, but the corpse was not drifting.

They Commit Some Feculiarly Nervy Deprectations.

About 8 o'clock last need the mode all the rough way for shore and another walking on Alameda street in a back and skipped. Number one opened the sack and found one-half of a double set of harness. He took it to Porter Bros, found that it was theirs, and that the other half of the set was gone. One of the thieving partners had evidently got away with his plunder, while the other was scared out.

On Wednesday, Auerbach Bros. had stolen a set of single harness, and yesterday, about 9 o'clock in the forencon, a double set was stolen from Judge Silent's place, corner of Figueroa and Adams streets. The latter set was valued at about \$28.

IT INDORSES THE CONSTITU-

ecial Meeting Held Yesterday to Consider the Important Ques-tions on Which We Vote Next

The City Council convened in special session at 10 o'clock yesterday morning, President Breed in the chair. Present, Councilmen Goss, Jones, Hyans, Frankenfield, Hiller, Lovell, Collins, Stearns, Willard, Teed and Johnson.

President Breed stated that the object of the meeting was to take into consideration the amendments to the State Constitution, and more especially the third amendment.

and more especially the third amendment relating to cities adopting their own charters. The following telegram from V. D. Moody,

was read:

OAKLAND (Cal.), April 5.—To the Mayor and President of Board of Trade, Los Angeles: Realizing the necessity of prompt action in order to secure the passage of Constitutional Amendment No. 3, you are requested to send a delegation to meet representatives of other cities in interest, in Oakland, Thursday afternoon at 10-clock, to arrange details for election. Answer.

V. D. Moody.

Mr. Goes suggested that Mayor Workman be appointed a committee of one for that purpose. President Breed said that it was now too late for any delegation to reach Oakland, as the meeting was to be held at 1

Oakland, as the meeting was to be held at 1 o'clock today.

Mr. Jones moved the appointment of a committee of one from each ward to prepare resolutiens on the third amendment, relating to the adoption of charters, etc.

Mr. Frankenfield moved to amend by appointing a committee of three—Mayor Workman, Mesers. Breed and Jones. After some discussion the amendment was withdrawn and the original motion prevailed.

President Breed appointed as a committee Mesers. Goss, Jones, Teed, Hyans and Frankenfield. A recess was taken, and upon reconvening the committee submitted the following resolution for the action of the Council:

the following resolution for the action of the Council:

Be it resolved by the Council of the City of Los Angeles: That Amendment No. 3 to the Constitution of the State, to be submitted to the vote of the people on the 12th of this month, relating to the framing of charters for cities of from ten to one hundred thousand lahabitants as well as for cities of more than one hundred thousand inhabitants, and providing that each city may frame its own charter, by causing a board of fifteen freeholders to be elected at any general or special election, whose duty it shall be to propose a charter for said city, said charter to be subject to adoption by the votes of said city and to ratification by the Legislature, is heartly indorsed by this Council and the Council asks for it the favorable votes of the electors of this city, and urges the importance of an interest in the adoption of this amendment on the part of every intelligent voter.

(Signed)

Thos. Goss,

THOS. GOSS, JOSEPH HYANS, MATTHEW TEED, J. FRANKENFIELD, E. W. JONES, WM. H. WORKMAN.

Mr. Jones moved the adoption of the resontion. Seconded by Mr. Goss. On roll

aution. Seconded by Mr. Goss. On roicall, unanimously adopted.
Mr. Stearns moved that Mayor Workman be authorized to telegraph the resolution in full to the President of the Board of Trade, V. D. Moody, at Oakiand. Carried. Moved by Mr. Frankenfield, that the dally press be requested to urge the importance of this matter upon the voters, editorially and otherwise, between this and election. Carried.

President Breed said that he desired to call the attention of members to the invitation received from the Flower Festival Committee, asking them to be present at the opening exercises. He said that it was to be hoped that every member would be ready to respond to the invitation and be present on the day mentioned, as it was a cause worthy their aid and encouragement. After some further discussion, adjourned.

THE FLOWER FESTIVAL.

The Ladies Working Hard for Its

The various committees met in the Pavilion yesterday at 10 o'clock a.m., for the consideration of matters pertaining to the success of the coming event. The full committee and list of exhibitors are not yet prepared. Those present decided upon some points which are here given for the information of the public. It was concluded to comment the restaurant this year upon the conduct the restaurant this year upon the European plan, and the scale of prices was set after consulting the prices charged in city restaurants. The prices for ice cream,

fixed, and the committees instructed accordingly.

It was decided that no one should be allowed to peddle anything, within the Payillon, and no one should be asked to buy anything. Of course a general invitation is extended to all to supply their wants, but no personal solicitations will be made. On Saturdaythe ladies desire an abundant supply of ivy and pepper foliage from all who are disposed to be generous. On Monday they earnestly wish to secure 15,000 calla lilles with as many leaves on them as possible. And at any and all times all the marguerites they can possibly secure.

with as many leaves on them as possible.
And at any and all times all the marguerites they can possibly secure.

They also want all the decorative and flowering ornamental plants that can be obtained, and will appreciate them as loans, or gifts to be sold, or to sell on commission.

Tube by the wholesale (with the owners names marked on the bottom), old tin cans by the thousand are being wept for (metaphorically speaking) in which the flowers may be placed. From now until Monday night there will be work for all who apply—young or old, great or small, ladies or gentlemen are luvited to call and assist in the work of decorating. The ladies have had a good many obstacles to contend with in attempting this festival, but they feel assured of its success if each one will do what he or she can do in the way of getting ready for the opening, which takes place next Tuesday evening.

THE SCALPERS

And the Excursion Agents Under the New Deal.

Ever since the Interstate Commerce Bill came to public view one of the most Intercame to public view one of the most interesting questions raised was, "How will it affect the ticket-scalpers, prokers and excursion agents?" It is a question which has not been fully answered, beyond the intimation that it would be a cold day for the scalpers, brokers and excursion agents when the Interstate Bill should go into effect.

the Interstate Bill should go into effect.

A Times representative was so fortunate yesterday as to run across a gentleman who is indubitable authority on the point, and who knows exactly what he is talking about. As to the point in question, he said in effect: "The matter has been kept rather quiet, but it is definitely settled. The managers of all the roads throughout the country have agreed on the subject: and the law will be rigidly enforced. All arrangements with ticket-brokers, scalpers and excursion agents are at an end. We will continue to pay commissions to our regular ticket agents, for we have a hold on them and can enforce their compliance with the law. If they go to cutting rates we will discharge them at once. On the brokers and scalpers, however, we

sions, nor monthly allowance; and homore passes or reduced rates whether they are alone or accompanying parties. We will still furnish them special cars, and they can charge their usual sun extra. I don't know whether they will be able to snake a living under this new arrangement or not—but that is their funeral, not ours. They have all had to give up their annual passes. Yes, it's pretty hard on them, but we have got to stick to the law unless the commissioners let us out."

The following circular, from the office of the general passenger agent of the Southern Pacific Railroad, is also to the point.

SAN FRANCISCO, April 4.

To agents selling tickets to foreign points: Your special attention is called to the provisions of the tenth section of the Interstate Commerce Act:

"Any agent or person acting for or employed. who, alone or with any other person, shall willfully do anything in this act prohibited shall be deemed guilty of a misdemeanor, and shall be subject to a fine not to exceed \$5000 for each offense."

We are advised by counsel to this effect: A person selling tickets for a railroad company, either on salary or on commission, is to that extent a person "acting for or employed" by it, within the meaning of the "act to regulate commerce," approved February 4, 1887. If such a person were entitled to receive a commission of, say \$5, on each through ticket soid, and should, in order to make the sale, give to the purchaser \$3 thereof, or any other portion of it, it would be a violation of the act, and the penalty would attach.

All persons selling our tickets are therefore notified thatany cut in passenger rates, whether made by commission, allowance, rebates, drawbacks or by any other method or means, will be considered sufficient for dismissal or for discontinuance of ticket-selling privileges, and the offender will be held personally responsible for any violation of the act. Very respectfully, T. H. Goodman, General Passenger and Ticket Agent.

J. C. Strubbs, General Traffic Manager.

Another notable instance was when he showed great anger and said many nely things in the presence of Mr. and Mrs. Howland, J. M. Pryse and others at Hammonton, because they thought it proper and right for the treasurer to give a bond, as fully provided for in the bylaws. Mr. Owen opposed the bond, but in spite of his heated opposition, in justice to Mr. Lovell I will add that he gave a bond, which I now have in my possession.

You will notice that the letter of Edward Howland shows the condition of affairs at Hammonton at the date of its meeting, and that the one from Gov. reach their owners if anything is found in them which might be detrimental to the success of the scheme.

Take another typical case, right at our own doors: A Mr. Meister, late a druggist in Los Angeles, was induced to join his fortunes with Owen's dupes, and was found there by Directors Hawkins and Cahn and party when they arrived. He begged to be of their party when they came away—and did so. He loaned \$500 in cash to Owen taking his personal note therefor, payable on demand. When he met Mr. Owen at Guaymas he presented the note, but Owen refused to pay it.

Mr. Meister has money invested in mines in Hermosillo, and left the party at that place to look after his investment. He begged that the fact of his being swindled by Owen might be withheld from his friends here, as he was ashamed to let them know that he had been so badly fleeced. But I think it is time that all of us who have been enlightened, and who have saved their lives, should put aside all personal feelings, disregard the shame of having been innocently duped, and endeavor to prevent others from going to ruin and death, for the real fact is, that nearly everyone in the colony is sick, because of want of fresh water, half-decent food, and exposure to the torrid heat of the sun at mid-day and the chilling heat of the sun at mid-day and the chilling heat of the sun at mid-day and the chilling earn, for the real fact is, that early everyone in the colony is sick, because of want of fresh water, half-decent food, and exposure to the torrid heat of the sun at mid-day and the chilling winds and fogs at night—a land that for a radius of at least a hundred miles is absolutely barren of verdure or a spear of green grass, even in the fertile Fnerte Valley, unless irrigated. On the alleged city site, so rugged and rocky is it all, that, a well cannot be dug without tools and powder to blast the rock, which is the chief production of "that romantic spot," as Mrs. Marie Howland styles it, except on the mud flats in "the magnificent harbor" and the sand-wastes further back.

Mrs. Howland, editor of the Credit Foncier, declares that she is anxiously longing for the summons to start for Topolobampo.

My finances have been considerably depleted by investing in stock in the company, but I will willingly contribute \$10 to purchase her a ticket to those "delectable mountains," if she will go, and some of my fellow-sufferers will add similar amounts. "We are pleased to notice that a system of real-estate 'booming,' recently introduced into Southern California, chiefly by some newcomers, has met with little favor from solid real-estate men in this section. We refer to the style of selling land at auction, with the accompaniment of brass bands and free lunches. Such sales are invariably announced by the projectors as 'entirely successful,' but it is a remarkable fact that usually three-fourths of the lots are for sale privately immediately afterward. Such a system is not only unheaithy, as establishing fictitious values, but it gives outsiders, who are only too willing to hurt us, an excellent opportantly to represent our marvelous prosperity as being of an unnatural and mushroom growth. A real-estate boom worked up under the influence of brass bands, free lunches and bids by 'cappers' is too much like religion acquired during the fervid excitement of a camp-meeting—it is not likely to last."

The Southern Coast.

Yesterday The Times noted a few the recent large sales and striking ba gains in real estate in Los Angeles as vicinity. Today we make mention some notable transactions in other parts of the southern coast which have come to our knowledge. They are only a few out of hundreds that have occurred since the so-called "boom" struck California del Sur.

A ten-acre lot in Bardsdale, the new settlement in Ventura county—the first sold there—went last Saturday for \$150 per acre, a price fully double the value of land in that tract until recently.

As noted heretofore, the Hot Springs property, near Santa Barbara, was sold week for \$100,000 to San Francisco and eastern capitalists. Less than two years ago this property was pur-chased by a Mr. Sawyer for \$7000. The Forbes tract in the Montecito,

known charming suburb of the Zenith City, was sold on the 4th inst. for \$100,000. If we know this tractand we think we do—the land would have been considered high at half that

price a year ago.

In the Carpinteria, a nook on the coast sixteen miles east of Santa Bar-bara, 461 acres have just been sold for

\$14,000, or \$300 per acre.

An interest in the Hope rancho, adjoining Santa Barbara on the west, has been sold for \$250,000. One-half that sum would have been considered a

high price one year ago.

In 1882 a tract of 40 acres in the
Azusa was bought for \$250. The other day the purchaser sold the same property for \$13,500.

On the 4th inst., in San Bernardino, a on the 4th list., in San Bernardino, a lot 115 feet front, between Second and Third streets, was sold for \$29,900—a great enhancement of values, which the Courier considers a sample of the general forward movement there. The same paper reports that in the Martin tract lots which were sold for \$160 each \$500 each, and several have been sold recently at that figure. The Courier

And the lots on Tenth street and vicinity which are today considered steep at from \$200 to \$300 a lot, will, a year hence, sell readily at from \$500 to \$700 each. It was so in East to \$300 a lot, will, a year nence, sell readily at from \$500 to \$700 each. It was so in East Los Angeles; so in every suburban addition clustered around Los Angeles. The advent of the street railroad brought every block convenient to the line practically within the city belt. And it will be so here. The history of the Los Angeles growth is repeating itself almost identically in San Bernardino. The same doubts, the same fears, the same croakings, were heard when the street railroads in Los Angeles commenced to add the country to the city. But the city absorbed the country, property enhanced, business increased, and thousands were added to the population yearly, despite the doubts and fears, the croakings, and the predictions of reaction. So it will be here; there can be no reaction; there will be no reaction, unless as the result of a national calamity.

Coming nearer home again, we note that a block of 50 acres in the Pasadena

that a block of 50 acres in the Pasadena highlands which was purchased three years ago for \$75 per acre has just been sold for \$500 per acre. The owner has 150 acres left which he holds at \$150,000.

The Pasadena Star of the 4th reports the sale of 60 feet on Fair Oaks avenue, near the Raymond, for \$4200; 10 acres in the highlands, on Marengo avenue, for \$500 per acre; a lot on Raymond street for \$2000, and another on the same street for \$3000.

A writer on the Pasadena boom sums up that within six months the realestate sales there have reached \$4,000,-000, that 400 new dwellings and other structures have been erected, and claims for the lusty young city a popu-

lation of 5000 souls now.

These facts show the drift of things all along the line.

We add some items of progress not in the shape of real-estate sales. The San Luis Obispo Tribune, advocating

"We have now an assess of \$1,000,000 and a debt of \$17,500. In five years our assessed valuation will probably be \$10,000,000. An expenditure of \$100,000 would be crushing, perhaps confiscating, to the \$1,000,000, but it would be trifling to the \$10,00,000. Besides, it is imperatively necessary that we have the sewers, and we may not get the \$10,000,000 valuation with out them."

The town assessor of San Buena-ventura reports that the assessment roll of that town will be double that of last year, and will reach \$1,200,000. Three schooners loaded with lumber have recently arrived there to relieve the dearth. The \$25,000 required for the erection of a hotel on the corner of Main and Palm streets has all been subscribed. Many handsome structure are in course of erection, among them a new bank, county hospital and new store buildings. Our fellow-citizen, Senator Rose, is engaged in extensive opera-tions for the improvement of San Buenaventura, and is investing much

money there. The reported sale of the Jonata rancho, of 280,000 acres, in the northern portion of Santa Barbara county, for \$260,000, is said to be a mistake. Its early destiny is subdivision, however.

In San Diego "flume bonds" to the amount of \$108,000 were taken in a single day, and tunneling for the flume

will be begun next week So it goes everywhere in the booming and irrepressible South with imperial Los Angeles at the head. The advice of the Santa Barbara Press is appropri-ate on this occasion: "The smallpox scare in Los Angeles ran up the real-estate sales for March to five and a half million dollars. Now let Sacramento try the epidemic scare.

MARIN COUNTY has laid a tax of \$150 per quarter upon all saloons. The drift of things appears to be in that

THE MISADO AT THE GRAND OFERAHOUSE.—There does not seem to be any immediate prospect that the popularity of Gilbert and Sullivan's masterpiece will decline.
It has been presented here a number of
times by various companies, and by none in
better style nor with more telling effect than
by the Carleton Opera Company.

The house was well filled last night.
The members of the company entered thoroughly into the spirit of the performance and the audience was delighted. Miss
Alice Vincent made a great; success of
the part of "Pitti Sing," not only by means
of her vocal ability, but by her graceful
dancing and picturesque Japanese attitudes.
A noticeable improvement can be observed
in the singing of J. C. Taylor, who undertook the part of "Nanki Poo." He was suffering from a severe cold on the company's
last visit here, and is only now sufficiently
recovered to do himself some justice. He
has a very pleasing, fresh, tener volee,
sweet in tone and powerful enough for the
music of light opera. Miss Rice makes
a quaint little "Yum-Yum," and acts
the part with all the piquant sauciness
that can be imparted to it. Miss Jessie
Quigley, as the third little maid, makes the
most of her little part.

As for Drew, he is a great "Ko-Ko," and
is conceded to be the best representative of
the character on the stage. Carleton's
makeup as "The Mikado" is wonderfully
clever, and the only regret one feels is that
he has so little to do. The by-play in the
soene he has with Pittl Sing, and his sittempt to give her his visiting card, was irresistibly funny, and brought down the house.
The favorite numbers were encored, some
of them, like "The Flowers that Bloom in
the Spring," several times. The madrigal,
"Brightly Dawns Our Wedding Day," was
also sung with charming effect.

The new and characteristic seenery was a
grateful addition to the general completeness
which marked the whole performance. The
Mikado will be given for the last time
tomorrow night.

Tonight the Drum Major's Daughter
will be given for the first time

"It is on the Farmers and Merchants' Bank for \$100. I have been here longer than I expected to stay and have run short of funds. I want enough to pay a few bills here and to buy a ticket to San Francisco. Don't keep me waiting, for I only have time to get it cashed before the bank closes," and he put the check which he had drawn up on the lawyer's desk and handed him a pen.

"I can't sign this," said the man of briefs. "I have no meney in that bank, and they would not honor my paper." This statement made the young blood so mad that he was about to whip the hard-worked lawyer. He walked up and down the office a few times and left. He was only out a few minutes, when he returned and took a seat at another table and signed a check. He did not say a word to the lawyer, but walked out, and has not been seen in this city since. A few days after that the head of the firm, who was out of town when the blood made his demand and left the office, returned. On visiting his bankers he was surprised to learn that his name had been signed to a \$100 check by some other person than himself. He at once told the circumstance to his confidential clerk, and the young man related the exciting conversation he had had with the young blood from Santa Clara. The whole affair was plain to him, and, on the following day, he received a letter from the parents of the young man, who said they would pay the amount as soon as they found the youngster. It now seems that the young man has returned home and denies that the check was forged by him. He claims that it was signed by the lawyer's head clerk. The clerk was seen by a Times reporter yesterday regarding the matter, and was very much put out. He declares that he did not even see the face of the check, and did not know the amount until he was told by his superior. He bears an excellent reputation in this city and his friends who have heard of the terrible charge which has been made against him by the wild dude from Santa Clara are confident that he is perfectly innocent of having done anyth

ALBUQUERQUE, April 7.—[Special.] The County Commissioners of Bernalillo county have ordered suit to be commenced against the bondsmen of ex-Sheriff Santiago Baca to recover about \$50,000, which his books, after being overhauled by experts, showed he was owing to the county. Ex-Sheriff Baca claims that the shortage was caused by the embezzlement of his late chief deputy, Albert Aubin, who, since the last election, in which Baca was defeated for a second term, has skipped for Canada. For some months past it was noticed that

last election, in which Baca was defeated for a second term, has skipped for Canada. For some months past it was noticed that Aubin was living rather faster than his salary warranted, and this fact was communicated to Sheriff Baca, but such confidence did Baca have in his deputy that he would pay no heed to anything said against him.

Finally Haca's bondsmen became alarmed at the talk against Aubin, and requested to be released from the bond. Even this did not open the Sheriff's eyes, and getting new bondsmen, he stifl allowed Aubin to hold his position, but after the election, when Baca was defeated, Aubin was missing, and an investigation, by order of the County Commissioners, was commenced by experts overhauling the books of the office. The further they went in the work the worse the discoveries that were made, until it was pretty evident that the absconding deputy had left his trusting chief in debt to the county to the amount of about \$60,000. When this discovery was made Mr. Baca did all in his power to settle with the county by giving the Commissioners a trust deed to some real estate, but when the labors of the experts were completed it was found that Baca had not enough property to pay the amount due the county. Consequently the County Commissioners have ordered suit to be commenced against the bondsmen.

THE CHOP OUTLOOK.

Reports from the Grain Districts of the State—Rain Needed.
San Francisco, April 7.—[By the Associated Press.] The Produce Exchange to-day publishes reports from all the wheat counties in California, giving the actual ondition of the growing wheat on April
st. It summarizes the situation as follows: The acreage seeded to summer fallow is con siderably below the average, but this part o siderably below the average, but this part of the crop is in generally good condition, and, with any rain, will make a good crop. The total acreage seeded is below the amount seeded last year. The late grain, of which there is a large amount, is beginning to suffer for want of moisture, and, in some sections, is beyond redemption, notably on the west side of the San Joaquin valley, where the acreage seeded is not 25 per cent. of last year's area. From Modesto south the crops have suffered, and are in a very critical condition, Merced county making, perhaps, the worst showing. Fresno and Tulare with immediate and heavy rain can still make fair crops. Showand are in a very critical condition, Merceal county making, perhaps, the worst showing. Fresno and Tulare with immediate and heavy rain can still make fair crops. Showers will do but little if any good. Parts of the central counties, such as San Joaquin, the eastern end of Stanislans and Sacramento, promise well, but rain is needed. The same applies to the northern and eastern part of Solano, and from there north along the Sacramento River, where there is a large amount of summer fallow and early winter grain. Even here the late grain has suffered, and the balance needs more rain. The plains west of Sacramento are fair, and can stand a couple of weeks more of dry weather. The outcome in Santa Clara, San Benito, Monterey and San Luis Oblespo depends entirely on the weather during the first half of April, and with good rains these counties will make a fair crop. The southern counties, with the exception of Ventura, are not encouraging. The acreage in all of them shows more or less of a decrease, and they do not promise to cut a large figure in the yield of wheat this year. On the other hand, they have a large acreage in barley, and with a good spring will turn out a large amount of this grain. Barley on the whole looks better than wheat, and the acreage shows an increase from last year."

The reports collected by the Evening Bulletin, a summary of which was telegraphed last night and which are six days later than the Produce Exchange reports, confirm the latter. As stated above, yesterday's showers were quite copious in the northern and central parts of the State, but it was not there that they were most needed. The rain ceased at an early hour this morning and sunny weather again prevails.

The Cabinet Wrestling with the Fish eries Problem and England's Proposed Seizure of the Tortugas Islands.

By Telegraph to The Times.

WASHINGTON, April 7.—[By the Associated Press.] The Cabinet met at 11 o'clock today, in accordance with the plan for the summer months, and remained in session over three hours. The meeting was devoted almost entirely to the consideration of international questions, the most important relating to the Canadian fisheries, the policy of Great Britain in regard to the Island of Hayli and the seal fisheries of Alaska. In regard to the fisheries question, it is understood that information has been received to the effect that England sustains the position taken by the Canadian authorities, and is in no wise disposed to make the concessions in no wise disposed to make the concessions requested by this Government. This question was considered by the Cabinet, with a view to the advisability of suitable action by the President under the provisions of the

wanton and wholesale slaughter of seals in the open ocean. It seems that during the day the female seals leave their young on the islands in charge of the males while they go miles away in search of food, with which they return at night. Recently the practice has sprung up of catching the female seals while they are in search of food. Their young perish as a matter of course, and the perpetuation of the animals is endangered. The difficulty of controlling this matter arises from the alleged want of jurisdiction of our Government over those waters beyond the three-mile limit. of our Government over those waters beyond the three-mile limit. By Telegraph to The Times.

New York, April 7.—[By the Associated Press.] Between 11 and 12 o'clock tonight, while nearly all of forty families, comprising about 200 persons, were asleep in the five-story tenement at No. 12 Essex street, fire broke out in a bakery-shop in the basement. First, second, third and special calls soom thronged the vicinity with fire apparatus and ambulances from the hospitals. Smoke filled the tenement, but the firemen swarmed through, directing the occupants to the fire-escapes. All but about twenty persons were thus able to make their escape uninjured. The twenty who were injured were helped out by the firemen and ambulance corps. Though the possibilities of dreadful disaster were great, the actual injuries are not fatal in any case. Loss, \$10,000.

Lansing (Mich.), April 7.—[By the Associated Press.] U. S. A. Forester, a Japanese merchant of high standing here, furnishes a new chapter of the romance concerning Kissane. Up to the present there was no clew to the whereabouts of Kissane from the time he was in Nicaragua to his appearance in California. Mr. Forester supplies the hiatus. During the Chinese rebellion in 1837 Forester was captured by a detachment of rebels and taken to Shanghai with other Japanese prisoners. Here the rebels were overcome by Chinese troops under command of an American, who was none other than Kissane. He had secured the favor of the Emperor through his shrewdness, and was raised to the rank of a general of the army. EVER OFFEBED IN THIS CITY.

On account of the owner's ill-health, a beautiful tract of 60 acres is offered for sale in one lot. This tract has a perfect title, is already subdivided into residence lots, with the streets graded and lined with trees. The location is high, on the mesa, and is in the middle of a promising locality, four miles west of Spring street. If applied for soon the tract will be sold at such low figures as to guarantee to the investor a profit of from \$55,000 to \$40,000 in a few months.

A good team, with a three-seated and covered wagon, together with office furniture, will be sold with it if desired.

A YEAR'S TRANSFORMATIONS—A REGISTRATION.

Second Control of the Contr

SANTA ANA, April 6 .- [Special Correspondence of THE TIMES.] The growth of this section cannot be appreciated by persons who live here, or even by those who visit Santa Ana and the neighboring towns frequently; but to one who returns here, after a year's absence, the transformation is really marvelous. Street cars, gas works and many substantial brick blocks are and many substantial brick blocks are among the improvements which have been added to Santa Ana in this short time. The fear of some interested parties, that the many buildings going up at the same time would not find occupants, was idle indeed, for the demand for quarters seems to be greater than prior to the erection of a number of buildings recently completed. Your correspondent has met several parties looking around for business locations, with a view to establishing themselves here. While business seems to be satisfactorily good, real estate, of course, takes the lead, and from one or two real-estate agents who scarcely made both ends meet one short year ago, the fraternity has grown to scores of prosperous individuals and firms, whose signs loom up on every hand. Quite a number of important sales of business property have recently been made, and wooden buildings on Fourth street are being moved away and torn down to make room for which blocks.

made, and wooden buildings on Fourth street are being moved away and torn down to make room for brick blocks.

Mr. Chilton, the postmaster here, has forwarded his resignation to Washington, the revenues of the office not being sufficient to justify him in giving it his whole time, as he has done for nearly two years, in the hope of better results. A numerously-signed petition is being circulated praying for the appointment of Granville Spurgeon, in whose favor Mr. Chilton resigns.

A petition to the Secretary of the Interior, at Washington, is being circulated, asking for a Government survey of the San Joaquin rancho, based on the claim made therein that a large tract of valuable land, several leagues in area, is illegally held by the Irvine estate. This question is not a new one, and this new move is being pretty generally discussed.

Among the new business houses here

one, and this new move is being pretty generally discussed.

Among the new business houses here is noticed the photographic establishment of Mr. E. W. Pierce, on the corner of Fourth and Bush streets, Santa Ana. Mr. Pierce is the late proprietor of the Elite gallery, in Temple block, Los Angeles, and the artistic work he is doing here proves that he holds his own in his profession. Mrs. Pierce has here on exhibition some of her paintings, and gives lessons in this art. More anon.

CORDESPONDENT.

FROM ANOTHER CORRESPONDENT. SANTA ANA, April 7 .- C. E. French has sold one-half block on East Fourth for \$20,000. He reserved the buildings

also changing hands both in the city and in the country.

The matter of the location of the Santa Fé Railroad through this section is now settled. The right of way is quite generally secured and work of grading in the valley is 'expected to begin soon.

Shipments from our station are very heavy just now. Oranges, wool and wine are being sent out and heavy receipts of merchandise are daily arriving.

Mr. E. D. Cook, of Benton Harbor, Mich., has just bought a nice house and lot on the corner of Fourth and French streets and expects to send for his

physique and had every appearance of good health.

From observations upon a few orchards the indications are that the apricot crop will not be very large this

year.
All the orange-packing houses are very busy packing and shipping.
Mr. James Gormley, of The Times, is again on our streets as lively and as much of a news-gatherer as ever.

UNIVERSITY PLACE, April 7.—[Correspondence of THE TIMES.] While Mr. William Hodge was driving a young colt hitched to a lumber wagon, on Pear street, about 5 o'clock on Wedday evening, one of the lines broke and the horse ran away, throwing Mr. Hodge violently to the pavement Just at that time Dr. Bale happened along, finding him lying in the road.

At first he could not tell his name, but he soon revived so as to direct the doctor to his residence on Wesley avenue. When the doctor had placed him on a bed in his own house he hurried to his office for the necessary implements for office for the necessary implements for setting his broken arm. little while before the cars are running on Ocean avenue.

One of these days in the near future we may surprise the good people of Santa Monica with a neat little daily. It is the intention at present to issue a daily Outlook during the summer season, when there will be a large number of people at the seaside.

Mr. M. H. Kimball has purchased the two lots on Second street, adjoining his residence, for \$2000. He has also bought the lot on Ocean avenue, on the north side of the Cliff House, for which he paid \$1500. He will probably build on them in a short time.

The carpenters are making good headway, on the Santa Monica Hotel. The entire building, whose sills were rotted away, is leveled up and new sills put in. A large force of carpenters will be put to work as soon as the lumber is obtained, which will be in a few days. The painters and paperhangers will follow in force, and it is expected the house will be opened early in May.

A Democratic Opinion.

A Democratic Opinion.

[Santa Monica Outlook.]

It is stated that the next National House of Representatives will have a Democratic working majority of fifteen. If this be true it will not be necessary to arbitrarily seat J. D. Lynch, the Democratic contestant in this district. Gen. Vandever has the certificate of election, and the Democrats don't need Joseph. The gentleman will hardly float successfully between this Scylla and Charybdis.

San Diego Harbor.

(San Diego Union, April 5th.)

The bark Sagamore, when coming up from National City yesterday, went aground about one mile from the railroad wharf, and lay with a heavy list to starboard all day. She is not injured, and will come off at the next high tide. The captain was salling the vessel, and the wind dying out, he was unable to prevent her leaving the channel and drifting onto a flat.

Fish stories seem to be the order of the day. Last week we stated that the fishermen on the beach made a haul of nearly a thousand pounds. Yesterday the same party made a haul of 1800 pounds of tom-cods and herrings.

There are at present some twelve or offiteen new houses in course of building in Santa Monica, and this is only the beginning of the end. A much larger number of houses will be erected this year than last, which numbered fifty-five. And many of them will be of a better class.

THE ALLEGED NIG IN THE A

A Spicy Council Committee Meet-ing on the Matter-Councilman Steams and City Surveyor Eston

The committee appointed at the last meeting of Council to investigate the matter of the Kuhrts-street bridge contract with the San Francisco Bridge Company met at 2 p.m. yesterday in the Council Chambers. All members of the council council as listeners to the proceedings. Mr. Jones called the meeting to order and stated the object for which it was convened. Mayor Workman announced the receipt of a telegram from Mr. McMullin, president of the San Francisco Bridge Company, asking that the meeting of the committee be postponed till Saturday next, as follows:

San Francisco, April 5.

San Francisco Bridge Company, asking that the meeting of the committee be postponed till Saturday next, as follows:

San Francisco, April 5.

**Hon. W. H. Workman, Mayor: Getcommittee to postpone investigation until Saturday afternoon. I will be present. We shall insist on full and thorough investigation; parties making charges will have to prove them or suffer consequences. Wire us if we can meet committee Saturday afternoon.

**Mr. Stearns said he was willing to allow delay; that he was not prepared to present testimony today, as he had only a few hours notice of the meeting; that he would state his charges, what he expected to prove, and the Bridge Company could be informed of them, so that they would know what they had to meet. He said he had zone to considerable expense in the matter of expert work, and he desired that the committee allow him \$100 for expenses and attorney fees. He would make his statements—if any official against whom he brought charges was guilty of complicity in a fraud he should be punished—if guilty of duplicity, he should be discharged. It had looked strange to see an official running his legs off to get a contract let, and making statements to newspapers to prejudice matters, when he should be the first to help unearth a nigger in the tence, if there was one, as he believed.

**Moved by Mr. Breed that the Mayor be authorized to telegraph to Mr. McMullin that the hearing of the matter would be postponed till next Saturday. After some discussion the motion prevailed.

**Mayor Workman said he was in favor of a full investigation of the bridge matter, and desired Mr. Stearns to have all the aid that was consistent in unearthing a fraud if there was one. He therefore moved that Mr. Stearns be allowed \$50 for expenses. Seconded by Mr. Collins.

**Mr. Breed said he was not in favor of allowing attorney fees; thought that would be of inguring; that he should have had the assistance of the City Engineer, but that official had been going around making statements to the press prejudicial t

that he had asked the City Attorney to help him, and the reply had been that he could not.

Mr. Breed said it was not a matter between the Council and Mr. Stearns, but one for the committee to investigate thoroughly, and, if necessary, employ experts; but did not think Mr. Stearns should be allowed expenses until after a hearing of the case had shown that there was a fraud in the case.

Mr. Stearns said he was willing to let the matter of expenses drop if the City Attorney would advise him, and the motion was withdrawn.

Mr. Breed offered the following: "Charges having been preferred, and a committee having been appointed to investigate the same, the committee request that the City Attorney meet with the committee and give his assistance in entering into an investigation of the same." Carried.

City Surveyor Eaton here arose and asked if the remarks of Mr. Stearns referring to him were intended to be charges by that gentleman. If so, he desired to have them entered as such. If not, he wanted Mr. Stearns to withdraw them until the next meeting, as he did not allow any man to talk that way about him. If Mr. Stearns made those remarks at random, he would hold him personally responsible for them.

Mr. Stearns said that he did not think Mr. Eaton need be in any hurry about charges; he thought at the proper time they would then have a chance to hear them.

Moved, by Mr. Breed, that Mr. Stearns be requested to hand to the clerk a list of the persons he desired, and he requested to hand their names to the clerk. Carried.

Moved, by Mr. Breed, that each member of the Bridge Committee summon such witnesses as he desired, and he requested to hand their names to the clerk. Carried.

Mayor Workman moved that all remarks referring to the City Engineer be stricked.

Mr. Stearns said he wished all members of the Council present at the investigation for withesses. And he also wanted Mr. Eaton not be present and bring with him the

rom the minutes. Carried.

Mr. Stearns said he wished all members of the Council present at the investigation or witnesses. And he also wanted Mr. Stearns and the also wanted Mr. Stearns and data that showed how at one time he had presented an estimate on the Cultus street bridge at \$12,500 and at mother had raised to \$15,800.

City Attorney Daly, who had come in, here arose and said that he did not remember that Mr. Stearns had asked his assistance, but that his services were at the discosal of the Council at all times. If an investigation was to be had he thought the mily proper way was to have specified written charges preferred and a copy served on the persons charged. He would draw such harges at any time if any person would ive him the requisite information. A long iscussion here ensued over presenting harges.

Mr. Bread desired to know what the

harges.

Mr. Breed desired to know what the harges were, and Mr. Stearns said that he lesired to present only written charges after that the City Attorney had advised, and he ad not the data with him to prepare them this session.

at this session.

A recess was taken to allow Mr. Steams to consult the City Attorney, and upon reconvening Mr. Steams said that the City Attorney thought it best to have his figures and data before drawing the charges. The committee thereupon adjourned to meet next Saturday afternoon, at 2 o'clock.

The White Cooks and Waiters' Union had a public installation of officers at Painters' Hall last evening, at which delegates from the other labor organizations were present. The following officers were duly installed: President, John C. Moore; vice-president, Thomas Molyneux; recording secretary, A. C. Morrison; financial secretary, George L. Clark; treasurer, A. H. Wisner; marshal, Tony De Bous; inside guard, Archard Benjamin; outside guard, E. F. Garcia. After the eeremonies refreshments were served and a social dance held the floor, but a limited attendance of the fair sex precluded any extended pursuit of this amusement.

Postponed.
When the case of The People vs. Wells, hornton and Stephens, charged with libel-g "Majah" Horace Bell, was called in Jusing "Majah" Horace Bell, was called in Justice Taney's court, yesterday morning,
Deputy District Attorney P. Denis stated
that one of the defendants was unavoidably
out of town. He read an affidavit from the
defendants were not willing to go on with the
case in the absence of Col. Wells. The "Majah" was on his feet in a second and he puffed
and shorted until the Court announced that
he would postpone the case until the 15th
inst., at 10 o'clock a.m.

No one can afford to travel without a bottle of this pleasant, safe and reliable preparation. C. H. Hance, druggist, TI and T9 North Spring street.

The most painful cases of rheumatism may be relieved by a few applications of Chamberlain's Pain Balm: its continued use will cure any case, no matter of how long standing. The record of this pain-relieving medicine is wonderful. It is equally beneficial for lame back, pain in side, shoulder lameness, and in all painful affections requiring an external remedy. A trial will convince any person that the above statement is correct. Chamberlain's Pain Balm is sold by C. H. Hance, 77 and 79 North Spring street.

CATARRH!

THROAT DISEASES, BRONCHITIS

ASTHMA,

CONSUMPTION,

THE EYE, EAR AND HEART,

Successfully treated by M. HILTON WILLIAMS, M.D.

M. C. P. S. O.,

"No. 275 North Main Street,

BY HIS NEW AND COMPLETE SYSTEM Of Medicated Inhalotions, combined with proper constitutional remedies for the Stemach, Liver and Blood, etc. Probably there has never been any system of practice so popular one that has so completely revolutionized to system of medical practice as the Aerian of Inhalation System, for head, throat or lung affections. The cures effected are simply marvelous, and can be substantiated by the very best citizens of Los Angeles. During the past four years (our residence in Lo Angeles) we have endeavored to be con accientious with our patients, and if, upon examination, we flad in our judgment, the case to be of an incursable nature, we unhesistatingly inform the patient or friends. We believe this system to be justifiable and are ready to condemn any physician who would de otherwise

CATARRH, ETC.

At times many of the symptoms of Catarrh may seem to abate, and the patient is led to hope that the disease is about to wear off. To use another class of symptoms soon appears, and he learns to his horror that instead of receivery from the disease, it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing, hoarseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some foreign substance, as, for instance, a hair, ob structed the throat; there becomes a sense of languor and fatigue, the breath lessens upon a little exertion, a short, hacking cough, a seculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the progress of the disease may have been slow, and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years, and has not seemed to become much worse, and trusts that he will "hy-and-by" recover. But this delusion is the grand error which has peopled our cemeteries with consumptive forms.

I have seen so many of these cases cured that if on to consider any case hopeless unless that he will be a seen and the content of the patient and error which has peopled our cemeteries with consumptive forms.
